

Security and Access Solutions

Hamilton® Security Cameras and Systems

Protecting your assets and investments is critical to running your business. As a trusted provider of technology solutions, Hamilton is proud to offer security cameras and solutions for keeping your business safe. With diverse features and capabilities, we can customize a solution that fits the unique needs of your business, delivering many value-added benefits.

Peace of Mind

Protect your business, buildings, equipment, and supplies through remote camera access. Rest assured that you can still keep an eye on things, even when you're not around.

- Monitor live camera footage remotely from any PC, smartphone, tablet or laptop.
- Set up alerts to notify you of activity
- Wired and wireless systems available

Improve Processes and Grow Your Business

Mobile and digital monitoring allows you to improve your business processes and grow your business.

A Fit for Your Budget

Hamilton Security Systems are customized to fit your needs and your budget. Our knowledgeable, experienced team will work with you to create a security plan that is right for you.

Receive Voice, Email or Text Message Reports*

Abnormal events can be quickly and conveniently communicated to a variety of preferred devices to facilitate quick responses.

Monitor Activity in Real Time

View surveillance activity online, check in on your business, property and loved ones.
