## NETWORK SENTINEL

### A True IT Partnership for Your ESU

We understand uptime and availability are vitally important to your system. This is why we align our technology to support your initiatives. Building a program that relies on 24x7x365 network monitoring coupled with an aggressive preventative maintenance component ensures optimum uptime for your ESU.

**Total IT support and management for a fixed monthly price. It's that simple.**

Our industry-leading Remote Monitoring and Management (RMM) platform enables remote monitoring, management and maintenance of network infrastructure and endpoints. Hamilton offers this solution in fully managed, co-managed and unmanaged models; whichever arrangement best suits your school's needs, Hamilton can make your IT easier to manage.

### Program Advantages

#### Secure Network

We provide patches, servicing and anti-virus updates for your PCs and prevent spam from reaching your network, reducing the likelihood of your network being compromised.

#### Protected Data & Information

Data backup services provide peace of mind, knowing all critical school, faculty and student information can be quickly restored.

#### Increased Productivity

Continuous insight into your network and preventative maintenance allows us to reduce the impact of IT failure by shortening the time between network decline and issue resolution.

# NETWORK SENTINEL PROGRAM ELEMENTS
