### Why Hamilton?

#### PEACE OF MIND

IT solutions that let you focus on what matters most — building the best usable spaces.

#### SUPPORT

Certified, expert technicians monitor your network and provide routine maintenance to ensure your network is reliable 24x7x365.

#### ENHANCE

A custom solution to equip your operation with the wiring, tools, infrastructure and security needed to optimize performance.

#### SAVE

Reduce the cost of managing your own network project wiring while preventing costly issues.

*Your Hamilton Team of IT Experts*

# Hamilton Fiber Wiring Solutions

## Fiber Access

Delivering fiber-optic connectivity with the security and high-speed transport services that are critical to managing your school. With a state-of-the-art fiber-optic infrastructure, we have the expertise, the network and the capability to deliver enhanced, efficient solutions.

## Network Wiring

Full wiring design and pulling services. Our team of expert technicians are equipped to pull wiring with any kind of cable — including fiber — and are ready to provide your next build with a trusted, reliable connection infrastructure.

## Business Phone Systems

Whether you have five staff members or 500, a single building or multiple, Hamilton offers the latest in telecommunications solutions. Equip your staff with the tools and features needed for efficient call handling.

## Network Management & Defense

Our industry-leading Remote Monitoring and Management (RMM) platform enables remote monitoring, management and maintenance of network infrastructure and endpoints. Hamilton offers this solution in fully managed, co-managed and unmanaged models; whichever arrangement best suits your school's IT needs, Hamilton can help make your IT easier to manage.

## Intercom, Bell, Network Clocks & Other Hardware

Synchronized communication and time-keeping services equipping as many classrooms, hallways and offices as you need. These customizable components operate on your network and serve as a complete solution for institution notifications. Hamilton offers all of the equipment required to connect and protect your school including wireless access equipment, switches, firewalls and more.

## Cybersecurity

Offering a full suite of security solutions that provide tools and information you need to protect your school from ransomware and other threats.

- Vulnerability Assessments
- Network Penetration Testing
- Security Training
- Phishing Email Simulations
- Incident Response Plans
- Security Policy Writing
- Consulting

## Access Control & Security Solutions

Providing security precautions for your operation is critical to maintaining safety and efficiency.

- Security Cameras
- Fingerprint Scanners
- Panic Button Auto Dialer
- All Staff Mobile Apps
- And More
