Why Hamilton?

Real People. Real Tech Solutions.

When you partner with us, you partner with real people who listen to your needs and work with you to provide tailored technology solutions.

Peace of Mind

We act as an extension of your staff working to protect your school and network from hackers, ransomware and other threats.

Time

Free up your time to focus your efforts on your students and staff without the worry of having to manage helpdesk matters or other IT requirements.

Budget Planning

It's easier to manage a tech budget with a fully managed IT solution as expenses are known and set in advance.

Staff Support

Hire us for your IT work and have the support your team needs at any time.

Experience

We stay ahead of evolving technology trends through ongoing education to better serve our customers and provide tailored solutions that fit your needs.

Hamilton Systems for Schools

Access Control & Security Solutions

Providing security precautions for your students and faculty is critical to maintaining a comfortable and safe learning environment.

Our experts proudly provide:

- Door Access Control
- Security Cameras
- Biometric Scanners
- Panic Button Auto Dialer
- All Staff Mobile Apps
- And More

Intercom, Bell & Network Clock Systems

Synchronized communication and time-keeping services equipping as many classrooms, hallways and offices as you need. These customizable components operate on your network and serve as a complete solution for institution notifications.

Business Phone Systems

Equipping your employees with the tools and features needed for efficient and professional call handling is essential. With our Hamilton phone systems, you have the ability to take calls anytime, anywhere making call handling easier than ever before.

Network Management & Defense

Total IT support and management for your institution for a fixed monthly price. A regularly maintained network means fewer failures and better, secured connections for your staff and students.

Fiber Access

Delivering fiber-optic connectivity with the security and high-speed transport services that are critical to managing your institution. With a state-of-the-art, fiber-optic infrastructure, we have the expertise, the network and the capability to deliver enhanced, efficient solutions.

PCs, Servers & Hardware

PCs, laptops, tablets and computer accessories to fully equip your staff, students and media labs. Select from pre-built solutions or have PCs custom built for you, choosing from a wide range of products to equip your school with updated solutions.
